

PORTFOLIO PROJECT

Lia Fry
MI349

December 10 2021

SHORT DESCRIPTION

After a long semester of work over numerous classes, I need a place to display all my creations. In addition the website itself would be a part of my portfolio

LONG DESCRIPTION

As a student in the Games and Interactive Media major, it is essential to have past projects on display for potential companies to observe and review. My primary focus is having a place to store all my animation projects, as that is my current ambition in the games industry. Having it all on one website helps keep all the information in one place, versus having to go through all my sources of social media (youtube versus vimeo).

PERSONAS

GAME INDUSTRY RECRUITERS

Game companies who are looking to bring on junior level employees or interns

GAME INDUSTRY PROFESSORS

Mentors that will assess my work and critique its contents

PEERS IN THE ANIMATION FIELD

Portfolio's are always changing, and it can be beneficial to view how others approach theirs.
